

D-BLOCK

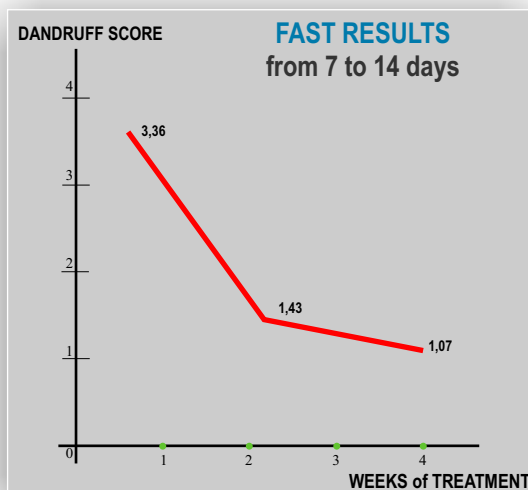

Climbazole 2%

Anti-dandruff SHAMPOO

150 ml

Antidandruff shampoo **D-BLOCK**, contains **climbazole**, a well-known and successful antidandruff agent. **Climbazole** belongs to imidazole compounds and is characterized by a particularly high activity, which, according to in vivo and in vitro studies, is found in all strains of microorganisms associated with dandruff.

Climbazole, while not affecting the normal flora of the scalp, shows no accumulation occurs (like ketoconazole) and acts very fast offering results within the first two weeks of use.

EFFECTIVENESS
fights 22 strains of *Malassezia Furfur*

COMPARISON with known ANTIDANDRUFF active ingredients

	A	B	C	D
MIC (ug/ml)	<0,03-2,0	16-64	0,12-8,0	2,0-64,0
	A=Climbazole, B=Piroctone Olamine, C=Zinc Pirithione, D=Selenium			

D-BLOCK is safe because:

1. Causes no side effects
2. Allows daily use
3. Leaves no residue
4. Does not contain heavy metals
5. It does not affect the normal flora

Additionally, in **D-BLOCK** climbazole is combined with **panthenole**, herbal extracts and a group of excipients, creating a highly effective product against pruritus, dryness, irritation and dandruff.

PACKAGING: Plastic bottle 150 ml
